

42" widescreen plasma HDTV

w/720p resolution

Even in brightly lit rooms, SAMSUNG's 42" HP-T4234 boasts a dazzling picture, thanks to its new FilterBright™ anti reflection filter. And with SAMSUNG's powerful anti-burn-in technology, screen-aging is a thing of the past. Every image is rendered in brilliant color and with the fine shadings of a 15,000:1 contrast ratio. Enhanced plasma picture technology delivers sharp on-screen text, while eliminating "noise." Experience the dynamic SRS TruSurround XT™ sound that comes from the bottom speakers. Two HDMI ports and a full complement of inputs let you plug and play your camcorder, DVD player, and more. And it's energy star compliant, so you'll use less energy.

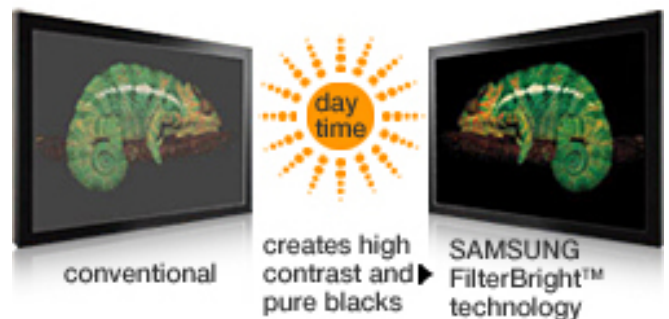

DNle™

SAMSUNG's revolutionary DNle™ technology offers digital perfection in naturally presented, crystal-clear images that uncover even the most minute detail.

FilterBright™ anti glare filter

Enhances contrast ratio in bright rooms even in the daytime and improves overall brightness for clearer image details.

natural true color

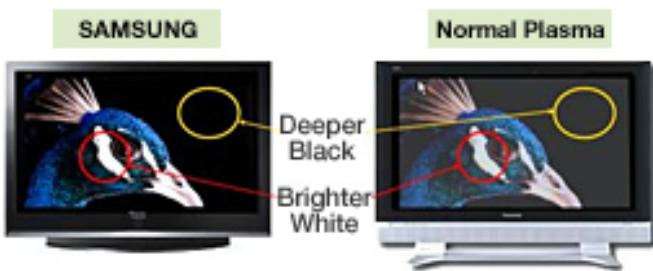

SAMSUNG plasma TV can display natural true color with 18 bit processing. A new algorithm that adjusts color balance will let you enjoy the 'as-is color'.

SRS TruSurround XT

SAMSUNG TVs are equipped with the best that technology can offer in sound quality. Even when viewing regular broadcasts, our 2 speaker surround sound makes you feel as if the theatre has been brought to your living room.

15,000:1 contrast ratio

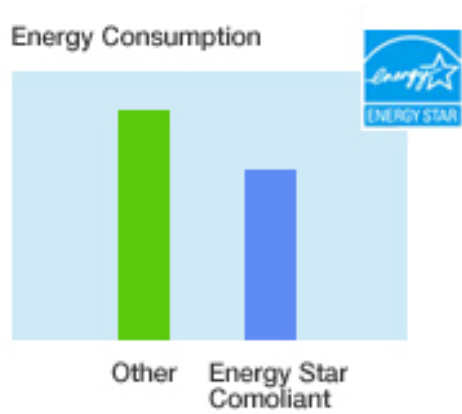

Two of the most important factors in overall picture quality contrast and brightness achieve new heights in these new plasma panels.

side AV inputs

Convenient side S-Video and composite AV inputs allow component connections without the need to access the back of the TV.

energy star compliant

Reduces energy consumption by up to 25% compared with standard TVs.

power save

Provides 3 modes, one of which is auto save. In the event of ambient light change, the blue eye detects this change automatically and brightness will be adjusted to the most suitable level. This feature reduces power consumption by up to 25% compared to standard TVs.
